

UPPER/lower CASE

Unless otherwise requested ,we use UPPER case. This is to increase the readability.

But you can have upper and lower case if you wish. Please enter your order in UPPER case. Then specifically request Upper and lower case in a note that you put in the 'Comments' box that comes up near the end of the ordering process. In that note you would say something like:

'I would like upper and lower case '

Please follow this note with the Upper and lower case text as you want it to be engraved.
